Panhandle Public Health District Strategic Plan
Director Letter

The 15th anniversary of Panhandle Public Health District is a perfect opportunity to reflect on the past, to celebrate the present, and to look to the future. Panhandle Public Health District received accredited status from the Public Health Accreditation Board (PHAB) in May 2016 and serves 12 counties in the Nebraska Panhandle with a population of nearly 90,000 people.

Our strategic plan is informed by our Board of Health and staff members and serves to clarify our work and the overall direction of the organization.

The 2018-2021 strategic plan includes three strategic directions:

- **Honor Our Resources** – Assure and align resources to meet the needs of our population.
  - Sustainable funding
  - Cutting edge technology
  - Recruitment, training and retention

- **Champion Community Health Improvement** – Embody our role as Chief Health Strategist
  - Successful collaboration
  - Commitment to Community Health Improvement
  - Dedication to best practices

- **Advocate, Educate, and Promote** – Engage and connect with the community
  - Strategic and diverse promotion

The trajectory of this plan offers a glimpse into the potential for an inspiring future. On behalf of the Board of Health and staff, I invite you to peruse the plan and join with us in the work so that we are a healthier and safer Panhandle Community.

Sincerely,

Kimberly A. Engel
Director

Vision, Mission, and Guiding Principles

Vision:

We are a healthier and safer Panhandle community.

Mission:

Working together to improve the health, safety, and quality of life for all who live, learn, work and play in the Panhandle.

The principles that guide our work at PPHD:

- We make data driven decisions based on community assessments.
- We implement and encourage others to use evidence based practices to assure that the needs of the community are met and done so in a manner that provides proven outcomes.
- We strive for integrity, honesty, and transparency to assure fairness and accountability to those we serve.
- We honor the work of the entire local public health system, as all partners play an important role in improving the quality of life and health status of the Panhandle Community.
- We participate in continuous evaluation and improvement to assure quality in the way we operate and that we are meeting community needs in the best way possible.
- We engage in collaboration, teamwork and partner development with an emphasis on the assets and resources that the collective impact of relationships can bring.
- We are good stewards of public funds to assure that we optimize available funding and meet the greatest need in the most cost-efficient, ethical manner.
- We model the strategies at an organizational level that we encourage others to adopt.
- We work to empower communities and individuals to take charge of their health through policy, system and environmental changes that help them make the healthy choice the easy choice.
- We believe in serving the Panhandle Communities in a nondiscriminatory, culturally competent manner, knowing that everyone has the right to quality of life and receiving information and services in a way that meets their needs.
Planning Process

The staff and board of Panhandle Public Health District met for a strategic planning session on January 25, 2018 at the Prairie Winds Community Center in Bridgeport, Nebraska. The day-long event began with a historical scan review of PPHD’s history since inception (Appendix A), followed by a 2017 recap presentation by staff, highlight major program activities and accomplishments from the year. At the end of the presentation Kim provided a timeline of staff, major program work, and highlights from each year of the District’s existence since 2002. The group also reaffirmed the District’s mission, vision, and guiding principles developed in 2013.

The remainder of the day was dedicated to strategic planning activities, centered around the strategic question “How does PPHD align our passion and resources at an organizational level to fulfill our role as Chief Health Strategist for a healthier and safer Panhandle community?”

The strategic planning work consisted of a consensus workshop to develop a 4-year vision and a SWOT analysis. The meeting was facilitated by Sara Hoover, CFO for PPHD.

Members of the PPHD leadership team met in February to continue the planning work of determining strategic directions, approved by the board in March. The leadership team worked from March-June identifying goals and objectives for the plan. The board approved the full strategic plan in July 2018.

4-Year Vision Consensus Workshop

A consensus workshop, a Technology of Participation group facilitated process, was completed to determine a 4-year vision for PPHD. Participants brainstormed individually, shared ideas with those at their tables, listed those ideas on half sheets of paper that were placed on a large wall, then clustered the ideas based on common intent and named each cluster as a column heading.

### Vision: What do we want to see in place in 4 years as a result of our actions?

<table>
<thead>
<tr>
<th>Cutting Edge Technology</th>
<th>Strategic &amp; Diverse Promotion</th>
<th>Dedication to Best Practices</th>
<th>Successful Collaboration</th>
<th>Commitment to Community Health Improvement</th>

PPHD Strategic Planning

**Strengths, Weaknesses, Opportunities, Threats and Trends**
Strategic Directions
The strategic directions were derived by the PPHD leadership team from the vision and SWOT analysis. The team developed a statement piece and grouped each element of the vision into one of the strategic directions.

**Honor Our Resources**
- Assure and align resources to meet the needs of our population.
- Sustainable funding
- Cutting edge technology
- Recruitment, Training, and Retention

**Champion Community Health Improvement**
- Embody our role as Chief Health Strategist.
- Successful collaboration
- Commitment to Community Health Improvement
- Dedication to best practices

**Advocate, Educate, and Promote**
- Engage and connect with the community.
- Strategic and diverse promotion
Goals and Objectives

The PPHD Leadership Team used the information from the vision, SWOT, and strategic directions to identify a list of goals that would indicate success. They then developed goals and objectives that will be reviewed in quarterly performance management meetings and updated on an annual basis, as measures are completed, and as new goals and measures are identified.

**Strategic Direction 1: Honor our Resources - Assure and align resources to meet the needs of our population.**

**Workforce Development**
- Develop and maintain an updated Succession Plan.
  - Develop a succession plan to assure continuity of operations in the event of an emergency or transition of key staff will be developed and approved by December 31, 2018 and will be reviewed and updated on at least an annual basis.
- Develop procedure manuals for continuity of operations.
  - Develop procedure manuals for finance, disease surveillance, and emergency response by June 30, 2019.
- Develop a system for staff recognition and retention.
  - Assess staff preferences for recognition by August 31, 2018 and review at September staff meeting.
  - Conduct Gallup Strength Finder by August 31, 2018 and review at September staff meeting.
  - Incorporate a newsletter process to provide a recognition section for employees by December 31, 2018.

**Technology**
- Develop a schedule for planned technology upgrades.
  - A schedule for equipment maintenance and upgrades will be completed by December 30, 2018. This will include adherence to state purchasing guidelines.
  - Replace server and related needs by December 31, 2018.
- Assess, monitor, and address potential security vulnerabilities.
  - Identify potential areas for improvement by September 30, 2018.
  - Provide 2 staff training opportunities to reduce potential risk instances by March 31, 2019.
- Technology for management systems – performance management, finances, and policy.
  - Assure adequate technological systems for performance management, financial oversight, and policy management through programmatic budgets, staff training (user), and cross training (manager/owner).
    - Assure annual budget allows for financial resources to pay for the services/systems
    - Train (and/or cross-train) applicable staff to manage the systems on an ongoing basis, as needed.
    - Assure consistent policies for protection of information systems.
    - Investigate alternate accounting systems by June 30, 2019.

**Financial Capacity**
- Refine financial policies to assure compliance, including workflow for procurement.
  - Financial policies will be updated on a biannual basis, or as needed.
    - Develop list of approved vendors by December 31, 2018.
    - Develop formal process for procurement to assure compliance with funding requirements by December 31, 2018.
    - Refine cost allocation policy to assure compliance with funding requirements by July 31, 2018.
- Find unique opportunities to partner for funding to provide program sustainability or enhance programs beyond grant/subaward/contract funds.
**Quality Improvement and Performance Management**

Robust work from the performance management system – use as opportunities for building in accountability.

- Integrate performance management into individual evaluations by December 31, 2019.
- Highlight and share PM/QI activities to all staff on a quarterly basis via staff meetings, newsletters, and other sharing opportunities.

**Alignment with national performance standards.**

Develop a mechanism or timeline to monitor and prepare for major cyclical events (Gantt chart).

- Develop by September 30, 2018 to include Strategic Planning, MAPP Cycles, Accreditation Cycle, and other key activities.
- Complete NPHPS governance assessment with the board of health by December 31, 2019.

---

### Strategic Direction 2: Champion Community Health Improvement - Embody our role as Chief Health Strategist.

**Use evidence-based strategies and approaches.**

Improve health outcomes through the Community Health Improvement Plan.

- CHIP annual report will be published no later than April 1 of each year.
- CHIP and related annual reports will be shared with PPHD board of health, Panhandle Partnership membership, posted on PPHD website, and through other distribution mechanisms.

Build on environmental health opportunities.

- Identify 1-2 new environmental health funding opportunities or partnerships by December 31, 2019.

Contribute to evidence base and research opportunities for public health.

- Work with the UNMC College of Public Health to identify at least 1 opportunity to partner on a research opportunity by December 31, 2020.
- Submit an abstract or poster to a national conference for presentation by December 31, 2020.
- Submit at least one proposal as a model practice by December 31, 2020.

**Foster and value strong partnerships.**

Forge strategic and opportunistic relationships.

- Maintain coordination of CHIP work with hospitals and other partners.
  - Secure an annual agreement with RNHN to assure continued support and implementation for the CHIP work.
  - Maintain quarterly meetings with MAPP steering committee and Priority Area Work Groups.
- Maintain coordination for preparedness with hospitals, emergency managers, and additional stakeholders.
- Broaden our reach to childcare providers by identifying 2 new avenues for outreach, partnership, or education by December 31, 2019.
- Maintain partnerships with worksites through Panhandle Worksite Wellness Council.
- Engage and partner with Economic Development through shared dashboards, joint planning opportunities, and implementation of strategies.

**Build momentum around health improvement progress.**

Improve current and identify new mechanisms for communicating our successes.

- Find regular sharing opportunities to highlight work and successes of PPHD and partners.
  - PPHD annual reports (CHIP, legislative, and community publication)
  - Stakeholder meetings (Panhandle Partnership, board of health, CHIP workgroups, community meetings)
  - Social media (Facebook, Twitter, Instagram)
  - News releases (print and radio media)
  - Unique story-telling opportunities to share the successes that improve the health for all in the Panhandle.

Assess for opportunities to strengthen practices to better fulfill the role as Chief Health Strategist by March 31, 2019.
Strategic Direction 3: Advocate, Educate, and Promote – Engage and connect with the community.

**Meet the needs of our target audiences.**
Monitor customer satisfaction.

- Implement regular collection of customer satisfaction data to assess programmatic work by December 31, 2019.
- Maintain regular reporting and improvement efforts through quarterly performance management meetings.

**Strengthen components of health equity.**

- Enhance health literacy capacities by providing training to staff and making additional resources available by December 31, 2018.
- Assure culturally and linguistically relevant resources by reviewing 2-3 resources annually (brochures, flyers, website, etc) to assure culturally appropriate representation and assurance for linguistic needs.

**Maintain a strong public presence.**
Review communication plan to assure strong public presence.

- Review and update on an annual (biannual) basis.
- Identify unique opportunities for sharing our message with the public, meeting the various needs of our target populations.

**Be the credible source of public health information.**
Develop white papers to support and educate on important public health issues.

- Investigate process and format in FY 2018.
- Develop 2 position statements/pieces in FY 2019.

Evaluate the effectiveness of the PPHD annual report.

- Enhance the health literacy of PPHD annual report through annual user testing and readability analysis.
- Review cost/distribution mechanisms to identify a more cost-effective approach.
