Share your voice! Panhandle Public Health District Asks Community Members to complete 15-minute survey!

Panhandle Public Health District coordinates updates to the Panhandle Community Health Improvement Plan every three years in conjunction with each hospital in the region. The result is a thorough overview of the health of the Panhandle and of each hospital's service area. You can see past examples here: <https://pphd.ne.gov/Pages/CHIP.html>

Community member responses in the community health survey are key data points that directly inform the work partners will do over the next several years. The survey will be open through March 15. You can fill out the survey here: <https://tinyurl.com/PPHDSurvey>

“The survey is one of our most important data sources,” said Megan Barhafer, Community Health Planner Supervisor, Panhandle Public Health District, “hearing the needs of the community directly ensures we are on the right path.”

If you have any questions, contact Megan at 308-765-1939 or email mbarhafer@pphd.ne.gov.

Panhandle Public Health District is working together to improve the health, safety, and quality of life for all who live, learn, work, and play in the Panhandle. Our vision is that we are a healthier and safer Panhandle Community.
